## **IMPURITIES:**

This product contains heavy metal impurities. Its use may lead to an accumulation of cadmium and mercury in the soil. Depending on soil characteristics, irrigation water quality, plant species and variety, crop uptake of cadmium may exceed the maximum limits allowed in food standards. In pasture, the offal from grazing animals may also exceed these limits. This product contains fluorine as an impurity. Do not feed this product to livestock or use in stockfeed mixtures. If top dressing pastures do not graze for 3 weeks or until rain or irrigation is received.

#### DIRECTIONS FOR USE:

Granulated diammonium phosphate fertiliser. Mainly used at planting in grain, horticultural and forage crops, and also for top-dressing dairy pasture. This product is not suitable as a stockfeed supplement or for application in solution, i.e. dissolved in irrigation water, water injection equipment or as a foliar spray. Because climatic and soil conditions, application methods, irrigation, agricultural and grazing management practices are beyond the control of Wengfu Australia Pty Ltd and cannot be foreseen, Wengfu Australia Pty Ltd accepts no responsibility whatsoever for any commercial damage, loss or other result following the use of this product whether used with directions or not, subject to any overriding statutory provision and provided such liability under those provisions shall be limited to the replacement of the goods as supplied or rendering again the services that are provided. The buyer accepts and uses this product subject to these conditions.
